# **Applications**

A special pattern in the adhesive coating allows trapped air to be easily eliminated through special channels ensuring accurate trouble-free and fast applications. It allows clean removal from the glass at the end of the graphic's life. The use of water is not recommended.Suitable for 5 years etch glass outdoor applications. Size available: h 1220/1520 mm; lenght 50 m.

## Printing Methods

Not printable.

Testing for suitability between media, printers and inks is always recommended prior to use.

## Shelf life

24 months, applicable only to the material delivered by Ritrama which has not undergone further processing, under the following **STORAGE CONDITIONS**:

- This material must be stored at a temperature of  $~22^\circ C$   $\pm~2^\circ C$  and 50  $\pm~5\%$  of Relative Humidity.
- Storage area must be dry and clean.
  Keep the material in the original packaging when not used in order to protect it from dust and contamination.
- Do not expose to direct sunlight or heat sources.

All Ritrama products are subject to strict manufacturing controls to guarantee good quality products. The above information is based on research believed to be reliable, but does not constitute a warranty. All material should be tested by the purchaser to determine suitability of the product for their purposes. All information is subject to change without prior notice.
